Terms & Conditions

Awards & Appreciations:

Gold (1st place) - awarded as a recognition of highest achievement in an individual category

Silver (2nd place) - awarded as a recognition of exemplary print quality

Bronze category (3rd place) - awarded as an appreciation of print quality

The Judges reserve the right to award a 'special category' trophy in case of special print work appreciation.

Who can participate?

Any Screen Printer / Digital / Textile Printer who is a resident of India can participate in this competition.

What specimen & how many can be submitted?

Any number of finished products, that has been screen printed either by manual process or by machine/ mechanical process can be submitted for the competition. Please submit only samples of commercial production and the samples should not be specifically made for this award purpose.

Security of the submitted specimens is of prime importance to the organizers and hence necessary arrangements would be made. However, the organizers reserve the right to display the entry samples at the Awards Gallery during the Screen Print India expo in Mumbai (24-26 April, 2020).

What is the last date for submissions?

All applications and specimens must be received before 20 March 2020.

How to choose the category

Groups (Please select the relevant groups against each category in the form):

- A) Screen Printing
- B) Textile Printing
- C) Digital printing
- D) Sublimation Printing (Textile and other surface)
- E) Mix printing process (Screen+ Offset/ Screen+ Digital)

Entry fees

No. of Specimens	Amount (Rs.)
1	500/-
2-3	700/-
4-5	1400/-
6-10	2000/-
11-15	2500/-
16+	3000/-

Categories (Choose among the 30 categories relevant for you):

Nominate yourself from the below categories. (Please tick ✓ against which group you belong to under each category and mention no. of entries you are submitting___)

1. **Art reproduction** (Serigraphy and Fine Art reproductions - only screen printed)

A _____ B _____ C _____ D _____ E _____

2. **Advertising Specialty/Promotional Products** - Generally a low-cost item bearing a printed advertising message or a company's name, logo or promotional message.

A _____ B _____ C _____ D _____ E _____

3. **Back-lit Signs/ Displays** - Imagery and text presenting a commercial message and designed to be viewed in an illuminated or Back-lit state.

A _____ B _____ C _____ D _____ E _____

4. **Banners/ Posters** - Imagery and text on flexible substrates, fabric or otherwise, which generally convey a commercial or promotional message.

A _____ B _____ C _____ D _____ E _____

5. **Calendars (table/ wall)** - A register of week or months conventionally marking a year printed on virtually any substrate.

A _____ B _____ C _____ D _____ E _____

6. **Ceramics** - Ceramic tiles and other similar materials, decorated with inks that are subjected to kiln firing during manufacture (direct or by transfer process).

A _____ B _____ C _____ D _____ E _____

7. **Compact Discs** - Any printed compact disc.

A _____ B _____ C _____ D _____ E _____

8. **Containers** - Imagery printed on cylindrical items made of glass, metal, plastic, or other material capable of holding liquids or other substances.

A _____ B _____ C _____ D _____ E _____

9. **Decals/ Labels/ Stickers/ Water-Slide/ Automobile decals** - Imagery and text on pressure sensitive material intended for placement on another surface. Printed decals that release from a support sheet and transfer to the application surface through use of water, adhering varnish, or heat.

A _____ B _____ C _____ D _____ E _____

10. **Electronic Products, Other** - Other electronic products produced with printed conductive ink. This category is for R&D, inventions, and innovative products, with printed electronics, as well as EL Lamps, force sensing devices, RFID, biosensors, resistors, photo-voltaic, touch screens, batteries, fuel cells, e-paper, etc. Entries are judged on uniqueness, use of existing technology in new ways, overall quality of the product graphics, circuit(s), assembly, lamination, registration, dimensional tolerance, intricacy, and production size.

A _____ B _____ C _____ D _____ E _____

11. **Finished Garments (Light)** -Articles of apparel that are completely sewn and assembled prior to printing. (Do not include garments printed light on dark, screen printed jackets, nylon shells, rainwear, hats, caps, visors)

A _____ B _____ C _____ D _____ E _____

12. **Finished Garments (Dark)** - Articles of apparel that are completely sewn & assembled prior to printing. They must be printed light on dark. (Don't include printed jackets, nylon shells, rainwear, hats, caps, visors, etc.)

A _____ B _____ C _____ D _____ E _____

13. **Glass/ Mirrors, Flat** - Subsurface or top-surface printing on flat glass or similar glass and mirror products.

A _____ B _____ C _____ D _____ E _____

14. **Invitations & cards: Wedding cards, invitations and greeting Cards** - Associated with special occasions / events- printed on paper or similar substrates.

A _____ B _____ C _____ D _____ E _____

15. **Heat Transfers-Textile Products** - Heat applied transfers for garments, hats, caps and visors only.

A _____ B _____ C _____ D _____ E _____

16. **Instrumentation/ Dials/ Gauges/ Panels** - Close tolerance printing on various substrates, Including backlit panel fronts and electronic graphic overlays.

A _____ B _____ C _____ D _____ E _____

17. **Manually-Printed Finished Garments (Light)** -Articles of apparel that are completely sewn and assembled prior to screen printing. Samples must be printed by hand (no automation). (This category does not include garments printed light on dark jackets, nylon shells, rainwear, hats, caps, visors, etc.)

A _____ B _____ C _____ D _____ E _____

18. **Manually-Printed Finished Garments (Dark)** -Articles of apparel that are completely sewn and assembled prior to screen printing. Samples must be printed by hand (no automation). (This category does not include jackets, nylon shells, rainwear, hats, caps, visors, etc.)

A _____ B _____ C _____ D _____ E _____

19. **Membrane Switch** - A membrane switch is a momentary switching device in which at least one contact is on, or made of, a flexible substrate and printed with conductive ink. Entries must have at least one switch in the assembly and may include all types of printed circuits and assembly options to create a membrane switch. The device will be judged on the overall quality of the graphic overlay, circuit(s), assembly, lamination, registration, dimensional tolerance, intricacy, production size.

A _____ B _____ C _____ D _____ E _____

20. **Metal Signs / Products / Nameplates** - Imagery and text on any metal substrate. Printed Original Equipment Manufacturer (OEM) markings, product or identification graphics printed on metal or plastic, for example, for eventual attachment to another product.

A _____ B _____ C _____ D _____ E _____

21. **Pad Printed Products** - Any item printed by the pad printing process using a silicon pad and cliché to transfer the image to the substrate.

A _____ B _____ C _____ D _____ E _____

22. **Retail/ POP Displays/ Exhibits** - Merchandising or exposition units designed for use at the point-of-sale or to promote or demonstrate particular products or services in general. (Not including back-lit displays.)

A _____ B _____ C _____ D _____ E _____

23. **Special Effects - Textile** - Unusual visual effects beyond the range of traditional inks and printing that are produced by using special effect inks or special effect techniques to include High Density, Gels, Foils, Flock, Caviar Beads/PVC Flakes, etc.

A _____ B _____ C _____ D _____ E _____

24. **Textile Products (Other)** - Printed textiles such as tote bags, backpacks, draperies, tapestries, bed linens, towels, pennants, caps, visors, etc.

A _____ B _____ C _____ D _____ E _____

25. **Unique Applications** - Images incorporating unique printing techniques for products not otherwise defined or images installed and/or finished in a noteworthy fashion.

A _____ B _____ C _____ D _____ E _____

26. **Vacuum-Formed / Distortion Printed Products** - Any plastic item printed prior to vacuum forming or pressure forming into a 3-dimensional finished product.

A _____ B _____ C _____ D _____ E _____

27. **Wooden Signs/ Products** - Imagery and text printed directly on wood, Masonite, or wood fiber substrates (excluding paper products).

A _____ B _____ C _____ D _____ E _____

28. **Value addition** (either only screen printed or combination of screen & offset or screen & digital - commercial).

A _____ B _____ C _____ D _____ E _____

29. **Value addition** (either only screen printed or combination of screen & offset or screen & digital – packaging products).

A _____ B _____ C _____ D _____ E _____

30. **Special category** (All those screen printed products which do not fall under above categories)

A _____ B _____ C _____ D _____ E _____
